**SHIVCHANDRA
SINGH**
DIRECTOR

ABOUT US

SHIVA FIRE INDIA By Shivasons Protection Industries Pvt Ltd with the extreme effort of a sister company Hocs Fire And Security Systems Pvt Ltd has accomplished the silver jubilee year 25 years of glory in Fire fighting expertise at industrial level. Currently we are suppliers and manufacturers of office automation system products and fire safety equipment all over India. We are a proud channel partner and authorized distributors plus dealers for various reputed companies. We are known for providing the most superior quality business products in the market & efficient sales service.

MISSION

To be the world's most recognized fire protection company through quality & development to save lives and protect properties.

Vision

To empower customer to secure life, property and business by delivering high quality & innovative fire protection solution and knowledge using world class manufacturing process through best engineering practice and expand it worldwide.

A MESSAGE FROM THE DIRECTOR

Shiva Fire involve from activities by professionals in the field of Fire Fighting Pumps. Our reputation to successful completion of small to major projects are sensible. Our trained engineers and technicians provides a high quality system solutions for our customers and provide the proper design, installation and service that our customers have grown to expect at all stages of projects. Looking ahead, we are focused on accelerating and execution of our company growth, we are constantly looking forward to building a long term customer relationships, while continuing to develop on the strength of our brand. Our success is driven by our employees who dedicate themselves daily to making a difference on behalf of all our various constituents. We appreciate you doing business with us, and we thank you for your continued support and trust, now Shivasons Protection Industries Pvt Ltd.is growing further to its local and international network. We're looking forward to serve you for decades to come

WHY SHIVA FIRE ?

**KNOWN FIRE
NO FIRE**

Our first commitment is to the people who use and benefit from our products and services

- We will endeavour to meet or exceed their expectations through products and services of the finest quality, safety and reliability.
- We will endeavour to provide prompt and accurate services with attention to consistency and detail.
- We will conduct business with basic honesty, integrity and ethics.
- We will pursue ever higher goals through continual improvement in all we do.
- We will seek advancement through the development of new and innovative ideas, services and products.

Our second commitment is to the people who work with us, as they are the sources of our strength

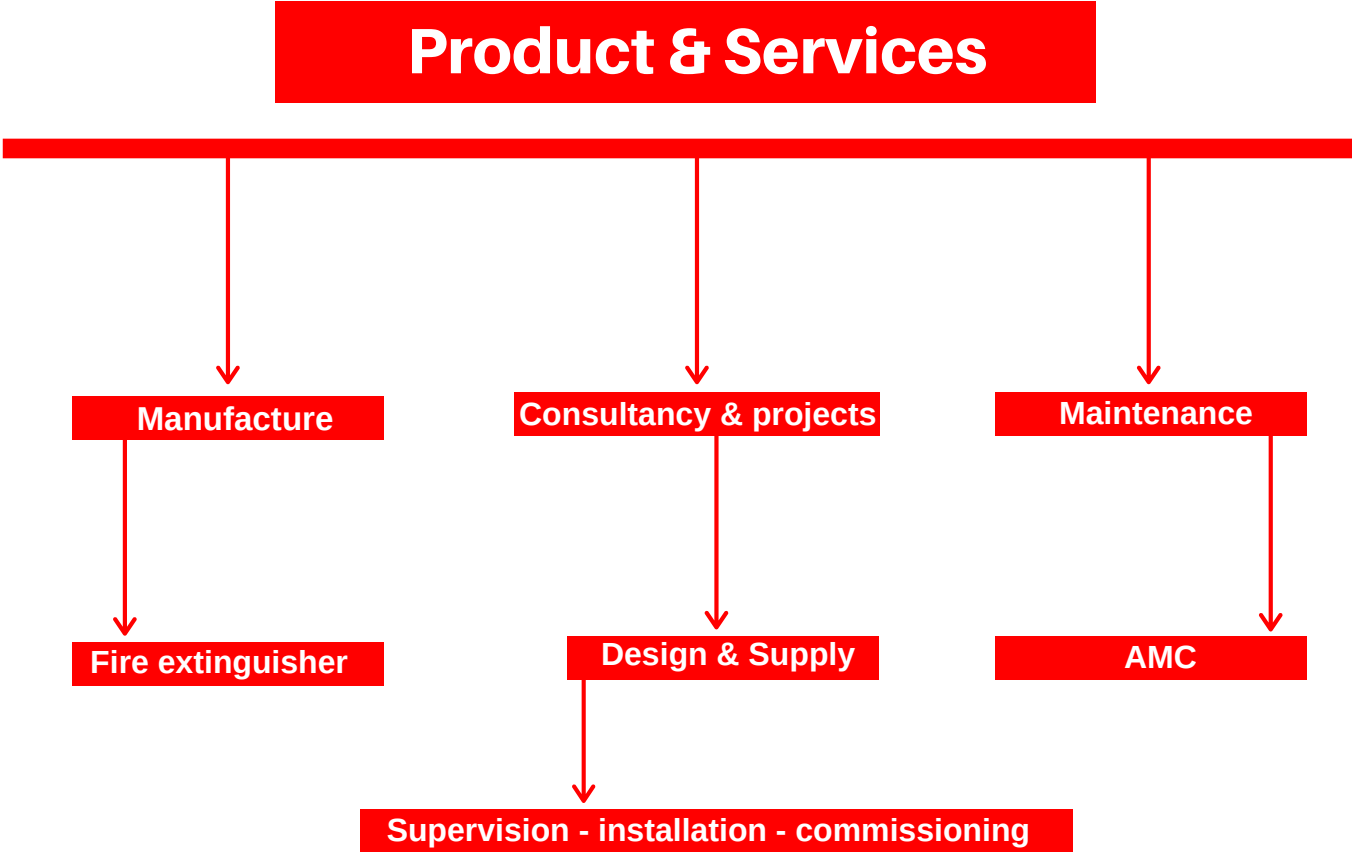

- All employees shall have a sense of security in their jobs.
- All employees should experience the joy and dignity that comes from the responsible and diligent application of their individual ability.
- All employees should have the opportunity to receive reward, based on merit, for work performed efficiently and effectively with passion, commitment and enthusiasm.
- All employees should have the opportunity for achievement, personal growth and advancement.

Our third commitment is to the people and organisations whose products and services we consume and share

- We will deal with them in an honest and open manner, based on sound business principals.
- We will seek long lasting partnerships and alliances that will be to our mutual benefit.
- We will treasure the friendship of our partners,value their trust and guidance and endeavour to contribute

Our fourth commitment is to advance a better life to all in the community in which we live

- We will endeavour to improve and promote higher standards in the fields and disciplines related to our activities.
- We will endeavour to develop and advance people through training and education.
- We will endeavour to contribute to and support good works.
- We will endeavour to promote an orderly and just society.
- We believe that sound profits and growth, together with fair returns to shareholders, are necessary to make all other values and commitments possible.We are determined, through the Grace of God, to fulfill these obligations to the best of our ability.

Product Approval

FIRE PROTECTION SYSTEMS

Manufacturing

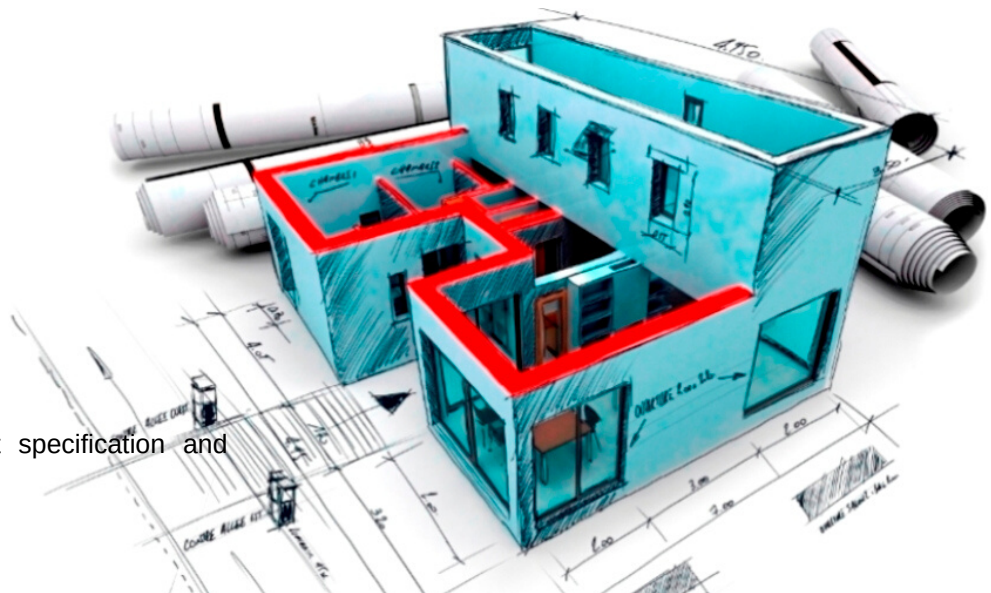

SHIVA FIRE ABC Powder Cartridge takes the guesswork and confusion out of firefighting. Being one of the most versatile extinguishing agents known to man, ABC Powder fights Class A, B, C and electrical fires with ease. When ABC Powder falls on a fire, the Mono Ammonium Phosphate in it expands and forms a thin layer on top of the surface. This controls the fire and stops re-ignition.

Consultancy & projects

We can provide a full consultancy service from conceptual studies to Front End Engineering Design (FEED), pre-engineering and detailed design. Our design and engineering expertise extends from full system design supported by hydraulic calculations, to 3D walkthrough models enabling the client to visualise the proposed scheme. We can develop a solution based on national and international design standards as well as client specific project requirements. Our designers and engineers will apply these to the following scopes.

- Steady state hydraulic analysis
- Transient state hydraulic analysis
- Finite element analysis
- Reliability and availability studies
- Consequence analysis
- Fire risk analysis
- 3D design modelling
- Water demand requirements
- Area safety charts
- Fire protection systems and equipment specification and selection

ANNUAL MAINTENANCE CONTRACT (NON COMPREHENSIVE)&(COMPREHENSIVE)

As a recognized expert in local and national fire codes and standards Shiva Fire Protection has the expertise and resources to inspect, test and service your fire protection and life safety systems 365 days a year.

PRODUCTS AND SERVICES OFFERED

MECHANICAL SYSTEMS

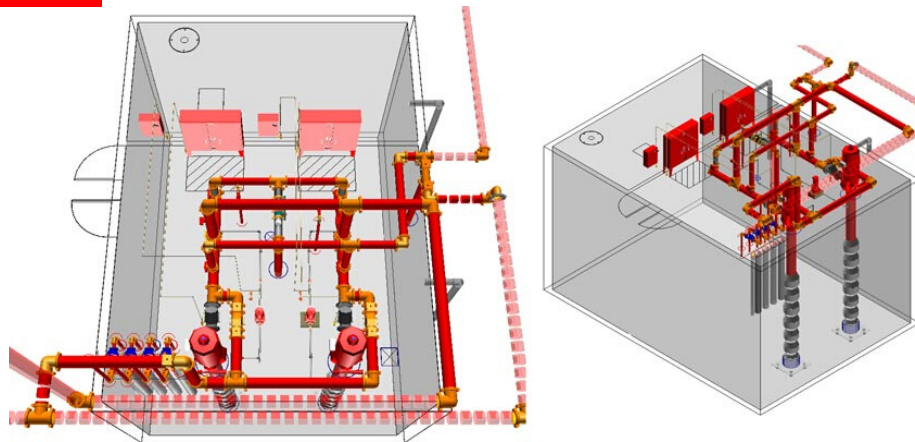

Gas Based Fire Suppression Systems

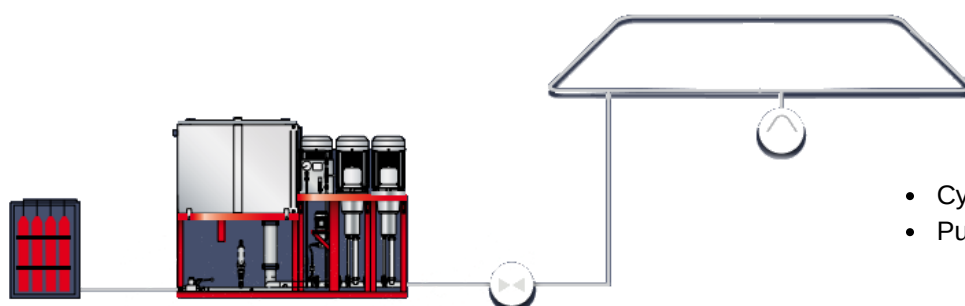

- Novec1230 based Fire Suppression Systems.
- 1G541/InertGas based Fire Suppression Systems.
- FM-200 based Fire Suppression Systems.
- Carbon dioxide based Fire Suppression Systems.

Water based Fire Fighting Systems

- Wet Sprinkler Systems.
- Fire Hydrant Systems.
- Fire Drencher Systems
- Dry Preaction Sprinkler Systems.
- MVW/HVW Spray Systems.

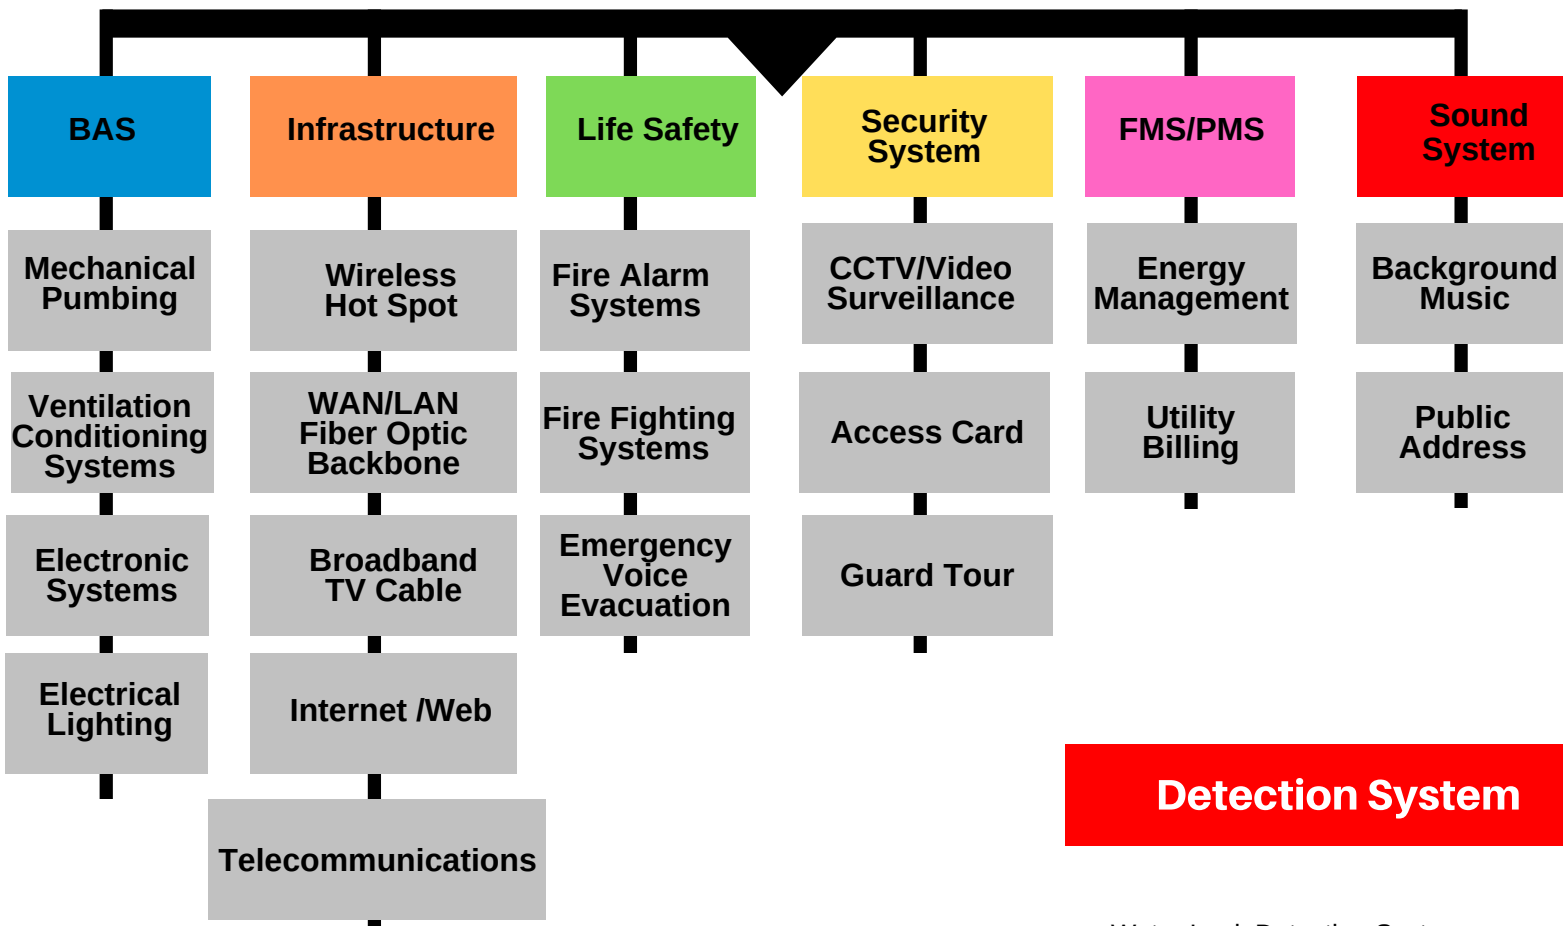

Water Mist based Fire Suppression Systems

- Cylinder Skid based Systems.
- Pump based Systems.

ELECTRONIC SYSTEMS

Integrated Building Management System

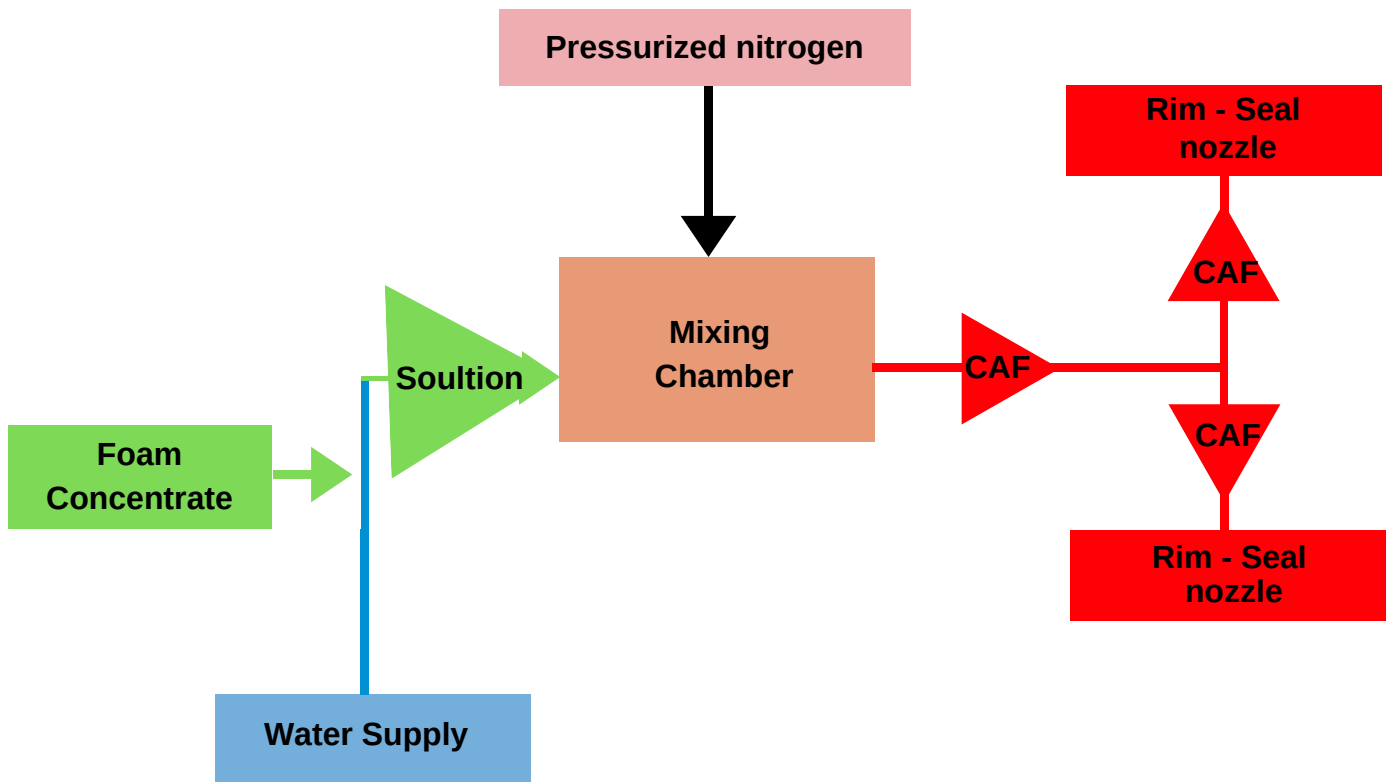

Detection System

- Wet Chemical Based Kitchen Fire Suppression Systems.
- Vehicle Fire Suppression Systems.
- Passive Fire Protection Systems .
- Air Sampling Based High Sensitivity Smoke Detection Systems.
- Public Address And Voice Alarm System.
- Access Control And Intrusion Detection Systems.

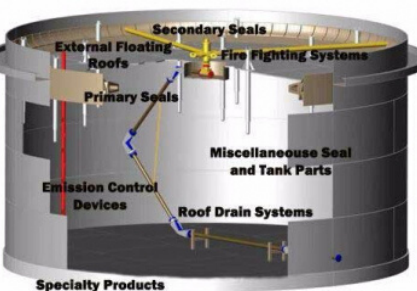

- Water Leak Detection Systems
- Fire Detection and Alarm Systems
- Rodent Repellent System.
- Linear Heat Detection Systems.

Shiva Fire Rim Seal Protection System

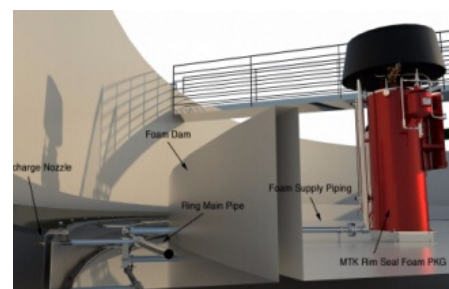

DCP Based Auto - Detection and Extinguishing System

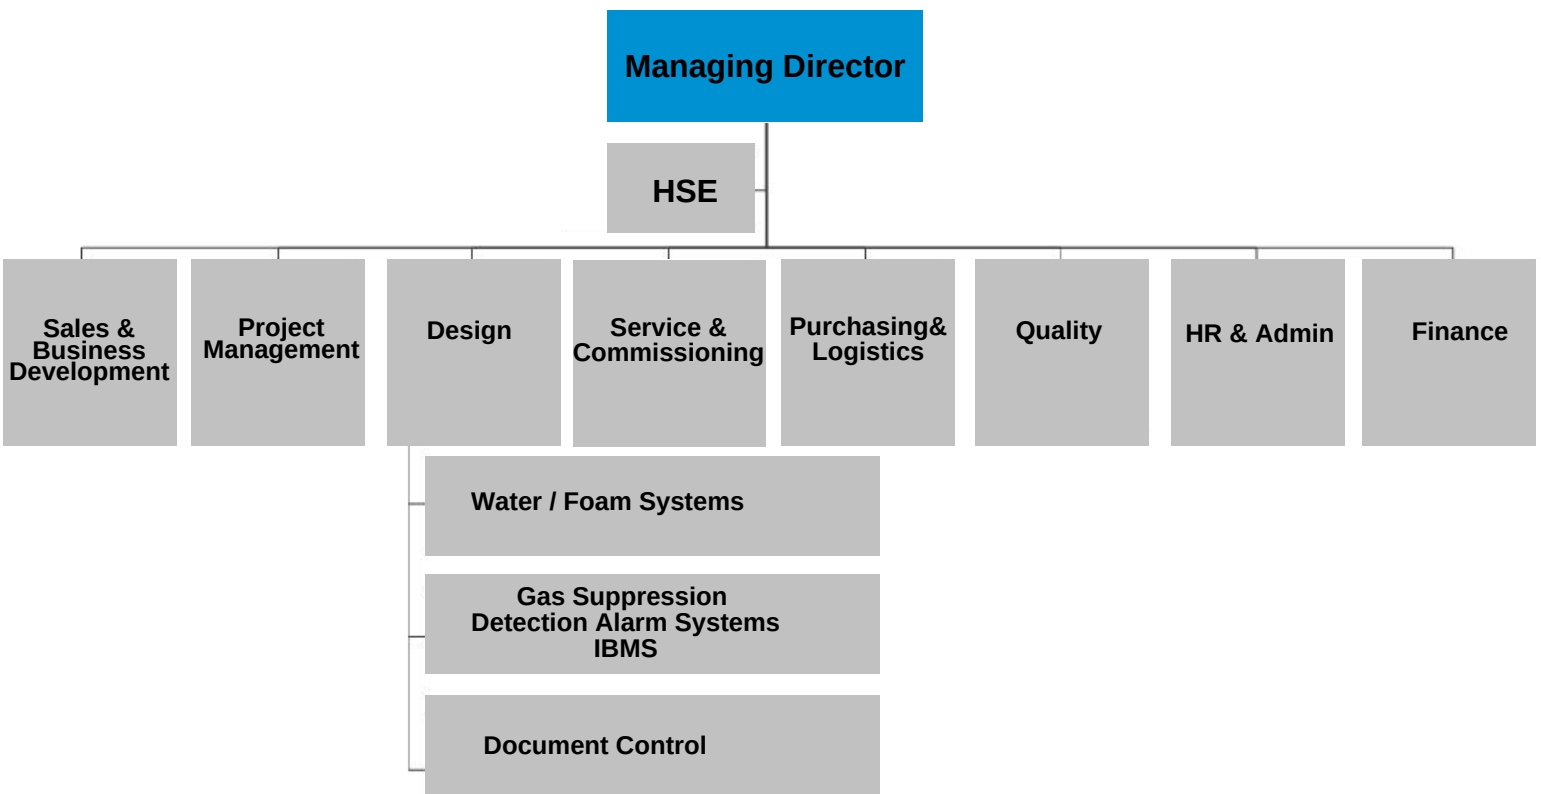

Rim Seal Protection for Floating Roof Tanks DCP Based Auto - Detection and Extinguishing System Floating roof tanks are considered to be the safest hydrocarbon storage vessel with respect to its vapor suppression ability. Even in these tanks, there exists an area, which exposes the hydrocarbon vapor to air, which is known as rim seal area. The Shiva Fire Protection System for Floating Roof Tank is a fully automated extinguishing system. It is specifically designed and manufactured for extreme fast detection and extinction of any type of rim seal fires as per the National & International Safety Standards.

Foam Based Auto Detection and Extinguishing System

Floating roof tanks are considered to be the safest hydrocarbon storage vessel with respect to its vapor suppression ability. Even in these tanks, there exists an area, which exposes the hydrocarbon vapor to air, which is known as rim seal area. The Shiva Fire Protection System for Floating Roof Tank is a fully automated extinguishing system. It is specifically designed and manufactured for extreme fast detection and extinction of any type of rim seal fires as per the National & International Safety Standards.

Organization Chart

Partner Brands

NOTE: The brands here are representative sample of the products that we regularly supply. If you require any specific products which are not shown please contact us, we can supply most types of fire protection products.

Core Business

Category	Fire protection systems and equipment.
Industry	Aviation IT/ITES & ,Business Parks , Education ,Healthcare ,Hospitality Infrastructure Manufacturing Power, Ports, Oil & Gas, Rail networks & MRTS ,Residential Retail.
Market Territory	Soth East Asia, with specific focus on India .
Scope	Design, supply, supervision, installation, commissioning, spare parts, and services.
Systems & Products	Sourced from leading brands in the fire industry.
Design Code	Government NFPA, classification societies' rules and local codes where applicable.
Product Approval	UL/FM and other approvals where applicable.
